## Dome Printing Announces Expansion

**Sacramento, CA** – Dome Printing is pleased to **officially open the Dome Direct, digital print, direct mail and fulfillment center.** The new 40,000 square foot facility located on North 10<sup>th</sup> Street will complement the full service Dome continues to offer its customers and create a total of 135,000 square feet of manufacturing.

Dome Printing began to offer mailing in 2005 after loyal customers requested these services. “We listen to our customers and follow their lead. We felt confident that the high level of service that they expect from our printing we could give them in mailing,” states Bob Poole, Partner.

Today, Dome consistently mails about 6 million pieces each month and has become a preferred facility with the United States Post Service. “When we made this investment we researched and purchased the newest technology available. We created a comprehensive facility that will meet the needs of our customers,” says Andy Poole, Partner.

Owned by the Poole brothers, Tim, Andy and Bob, Dome is Northern California’s largest privately held printing company and is respected for their progressive approach to print solutions during their 40 years in business.

Tim Poole, Partner, declares “Dome Printing is committed to being more to our clients. We are a solution provider, offering services that will allow clients to gain the most from their marketing dollars. This is even more important now in this struggling economy.”

Technical Background: Dome is a FSC Certified, ISO 9001-2000 registered and G7 Master printing facility. Offering offset and digital print solutions. Featuring a Heidelberg pressroom with the latest in sheetfed and heatset web technology including in-line finishing. Complemented by digital printing to offer variable data direct mail campaigns. The complete bindery and the capabilities of the new Dome Direct facility are the final combination to the most comprehensive service possible.
